
CIMI PROJECT

DISSEMINATION ACTIONS

This document's main objective aims at providing guidance on the format to be used when submitting a scientific project to CIMI Executive Committee.

CIMI will support any dissemination action whose purpose is to emphasize the attractiveness of mathematics and computer science fields of study as well as the interaction between both.

CIMI may fund up to 10 000€ for the organization of any dissemination action. CIMI may also be able to provide assistance and expertise with the preparation of the event.

REQUESTED INFORMATION

PROJECT TITLE & APPLICANTS :

Part I. Brief summary of the project (around 10 lines) :

Part II. General information details :

- * Applicants : brief resume (1 page per applicant)
- * Period of time and duration of the event

Part III. Full description of the project :

- * Full description of the programme (around 2 pages)

Part IV. How is the project in line with CIMI scientific programme and objectives :

- * Interactions between mathematics and computer science
- * Expected outcomes and benefit for the community

Part V. Attachments :
